

Total is a major energy player that produces and markets fuels, natural gas and low-carbon electricity. Our 100,000 employees are committed to better energy that is safer, more affordable, cleaner and accessible to as many people as possible. Active in more than 130 countries, our ambition is to become the responsible energy major.

**“Getting the ore from
the pit to the crusher.”**

**If this sentence sounds familiar,
you either work in a mine or at Total.**

TOTAL, PARTNER TO MINING INDUSTRY PROFESSIONALS

At Total, we have been supporting companies in the mining sector for decades.

The result of this collaboration is a range of innovative products and integrated solutions specifically tailored to the mining industry.

Thanks to our global network of refineries and processing plants, TOTAL MINING SOLUTIONS can provide support to customers wherever they are in the world, even the most remote sites.

With experience on more than 600 mining operations and in more than 40 countries, we are here to help you on the path to operational excellence and mining success.

▶ REDUCE OPERATING COSTS

Let us help you manage and optimize your energy consumption, technical aspects and operational activities to help you reduce operating costs.

“Total provides a high level of service in the supply of lubricants. We have never experienced a shortage or any quality concerns.”

Tier 1 Miner

TOTAL MINING SOLUTIONS PRODUCTS RANGE

▶ FUELS

The **TOTAL EXCELLIUM** range of fuels is specifically designed to keep Diesel engines clean thanks to its additives. This new generation fuel cleans engines and provides long-lasting protection for better performance and lower costs, kilometer after kilometer.

▶ LUBRICANTS

TOTAL RUBIA WORKS is a range of dedicated mining engine oils designed to reduce time spent in maintenance and increase operating hours. As with all of our products, they comply with the latest manufacturers' requirements, extend drain intervals and the life of your equipment to reduce cost of operations.

Optimizer

OPTIMIZER: ENERGY CONSUMPTION MONITOR

OPTIMIZER is an energy efficiency service that combines your energy usage onto a real time digital platform. This allows our experts to work with your teams to track and reduce the energy consumption on your mine site.
